

- Partners in the Consortium: **9**
- Centres involved: **50**
- Nations involved: **30**
- Timing: **2013-2018**
- Total costs: **3.879.712,00 €**

## The intentional impact of HERACLES

- Countries participating to the Consortium
- Centres involved in the “Extended Network”
- Advisory Board

### CORE ACHIEVEMENTS

Funded by:

- People screened by ultrasound in 2014-15 (Bulgaria, Romania, Turkey): **24,693**
- People estimated to be infected with CE (Bulgaria, Romania, Turkey): **151,000**
- Patients enrolled in the European Register (ERCE): **1,744 from 33 centres**
- Human cyst samples collected worldwide: **742 from 26 countries**
- Samples in the Echino-BioBank: **≈4,500**
- European patent on anti-parasitic soluble drugs: **“Salts of benzimidazole compounds”**
- First proteomic description of: **parasite exosomes in fertile hydatid cyst fluid**
- Scientific papers published in peer reviewed journals: **39**
